

DYNAMATIC TECHNOLOGIES LIMITED

PRODUCT RANGE

CORPORATE PROFILE

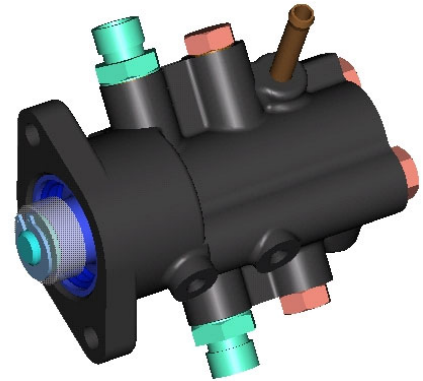

Dynamatic Technologies Limited produces highly engineered products for the following applications:

- Automotive Sector
- Defence Sector
- Agricultural Equipment Industry
- Construction Equipment Industry

DYNAMATIC HYDRAULICS® is Asia's largest producer of Hydraulic Gear Pumps, and one of the Top Five worldwide. **Dynamatic®** also manufactures a wide range of sophisticated Hydraulic Valves and custom tailored hydraulic solutions extending from simple Hydraulic Pumping Units to sophisticated Marine Power Packs, complex Aircraft Ground Support Systems to turnkey industrial installations.

All these products are produced at State-of-the-Art manufacturing facilities located at Bangalore, and assembly is done in an air-filtered environment to avoid initial contamination.

DYNAMETA™ produces high quality Non-Ferrous Alloy and Castings for Industrial, Automotive and Aerospace Applications. The divisions' two foundries are located at Bangalore and Chennai respectively and incorporate use of the latest metallurgical technologies.

- **POWERMETRIC™** a world-class
- Design Center capable of total
- product and system design,
- with advanced capabilities in
- structural, thermal and dynamic
- engineering for analysis, design
- validation and optimization.

CORPORATE PROFILE

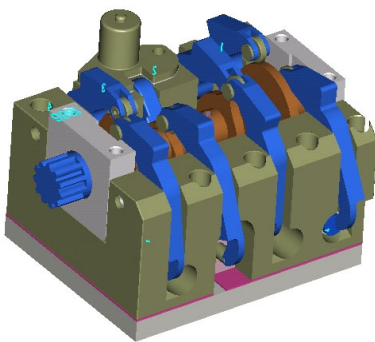

DYNAMATIC AEROSPACE™

produces exacting Airframe Structures and Precision Aerospace Components. Products include the Wing and Rear Fuselage of the *LAKSHYA*, India's Pilotless Target Aircraft, and Ailerons & Wing Flaps for the HJT-36 Intermediate Jet Trainer. *This is the first time such capabilities have been developed in the Indian Private Sector, and this division is now taking up development of major Airframe structures for the Sukhoi 30MKI Fighter-Bomber.*

JKM DAE RIM AUTOMOTIVE LIMITED (JDAL):

A subsidiary of **Dynamatic®**, **JDAL's** manufacturing facilities located at Chennai, incorporate state-of-the-art technologies to produce high quality automotive components for **Hyundai Motor India Limited, TELCO, and Fiat India Limited** on a single source basis.

The company produces the Hydraulic Transmission System for India's T-72 Battle Tanks including Hydraulic Pumps, Hydraulic Transmission couplings and Distribution Mechanisms. Additionally, the Company has designed the Steering Control System, Turret Control system and Braking System for the *Arjun* Main Battle Tank.

DYNAMATIC: BUILDING A NATION Over 85% of all Agricultural Tractors and Construction Equipment produced in India are powered by Dynamatic Hydraulics. 50% of all passenger cars made in India are built using critical engine & transmission products manufactured by JDAL. The Nation's borders are secured by products and technologies developed by Dynamatic Technologies Limited

DYNAMATIC: SERVICING THE WORLD Dynamatic is committed to designing and manufacturing world class products, and delivering these to sophisticated customers around the world.
